VBOZ™ providing you with the widest range of Equipment Server Rack Cabinets.

While some brands boast about quality and others talk about price, the **VBOZ**™ product line has upheld a reputation for excellence and superior performance for the Equipment Server Rack Cabinets.

With the **VBOZ**™ brand, you can address all your major concerns:

- Quality,
- Price,
- Availability,
- Ease of doing business
- Depth of line with our abundant variety of Equipment Server Rack Cabinets.

Search no further!! You have found it!! Here we are confident you will be able to find your solution to your racking problems.

Extra Cooling Server Rack Cabinets

Heat is just one of the many factors severely affecting IT equipment performance. With today's high heat loads inside server enclosures, it is critical to use thermal management techniques with optimized enclosure ventilation.

Equipped with additional Exhaust fans to assist in pulling out thermal heat from within the cabinet, the X-Series performs with excellence in its bid to maintain temperature levels to optimal levels. Even its shelves and side panels are ventilated for maximum airflow.

Front

Features and Benefits:

- **Equipment Mounting Compatibility:** Our Server Cabinet, are configured to be compatible with most computer equipment including: Compaq, Cisco, Dell, HP, IBM, Sun, and Intel.
- **RU positions:** marked and notched for easy alignment and placement of equipment.
- **Full slotted Top Frame** at its four edges to allow for proper ventilation preventing overheating.
- **Perforated Front door and Side Panels** to optimize airflow.
- **Fan Mounted Louver Rear Door** assist air circulation in racks with many equipments to maintain temperature levels
